Fax: (608) 837-8515

Helpful information on holding an event at the Center

THE FACILITY

The Center for Advanced Studies of Functional and Restorative Esthetics has a 27 seat amphitheatre. It can be used as a stand alone amphitheatre or can be used in combination with the dental operator. The operator is an oversized room with an overhead camera mounted from the patient light. This allows video and audio communication from the operator to the amphitheatre. The amphitheatre has wireless internet, LCD projector and two 42-inch LCD monitors on either side of the projector screen.

Outside the amphitheatre is a large area for vendor displays. Next to the amphitheatre is a full kitchen. This can serve as the lunch room or as a hands-on learning area as it is also equipped with an LCD projector and screen.

Catering for breakfast, lunch, hors d'oeuvres, or dinner is available.
